Hi Nicole,

Is there any possibility to get us on Wed AM so we can coordinate our other court and personal obligations?

We can be reached at the main number 617-983-6622 and one of the evidence office staff will relay the message.

Keep us posted.

Dear Annie and Peter,

This is just a reminder about trial CW v [REDACTED] that starts tomorrow. I expect to call you both last. I haven't had to use a chemist in a very long time so I'll need some help brushing up on the questions to ask you. It's my understanding that the trial will be held in room 817. I expect to call four officers before I call you both. I don't know how long the trial will take. It could be done in one day, or it may continue into Wednesday morning. If you could get there by 11 AM tomorrow morning, that would be great. Is there a phone number I can contact you at if the judge agrees to let me hold off on your testimony until Wednesday?

Thanks
Nicole

Who is the new custodial chemist? It won't be you and Annie? If not, I have to send notice of expert witness to defense counsel including the new custodial chemist's name. Thanks again.

Thank you Nicole, the lab # is the same but we will add an R for submittal. The retesting should be completed later this week. I'll send your discovery request to the new custodial chemist so we can get the packet out to you.

The old Lab # is [REDACTED]

This was sent back for retesting because Stacey Feiden is no longer in the state to testify. Would that number change?

Dear Peter,

Would you mind emailing me a copy of your resume so that I can send a notice of expert witness to defense counsel in the above case?
Thanks!
